Roofer's Fall Protection Kit

Gemtor's Model VP801-2 and VP811-2 Fall Protection Kits for residential roofers are the perfect choice for bringing your employees into **compliance with the OSHA Residential Fall Protection** guidelines. Packaged in a high visibility weatherproof bucket, each worker can be assigned their own personal fall protection kit. Each kit contains everything needed to help protect your worker from falls while working on pitched roof structures.

OSHA 1926.501(b)(13) states... workers "engaged in residential construction activities six (6) feet (1.8m) or more above lower levels shall be protected by guardrail systems, safety net systems, or personnel fall arrest systems."

Features

Premium 5-point Full-body Harness

- ☑ Fully adjustable shoulder and leg straps.
- ☑ Two color design for easy donning.
- ☑ Sub-pelvic for superior force distribution.
- ☑ Corrosion resistant zinc plated hardware.
